

WATERPROOF COATINGS

Waterproofing roofs (DECOELAST or IMPERDECO), terraces, swimming pools or planters (DECOKRIL FLEX), making terraces walkable (MEMBRANA PUR 3 G), insulating facades to reduce temperature in summer or condensation in winter (DECO-AISLANT)... even avoiding periodic maintenance. All this is possible with our high performance products..

Benefits:

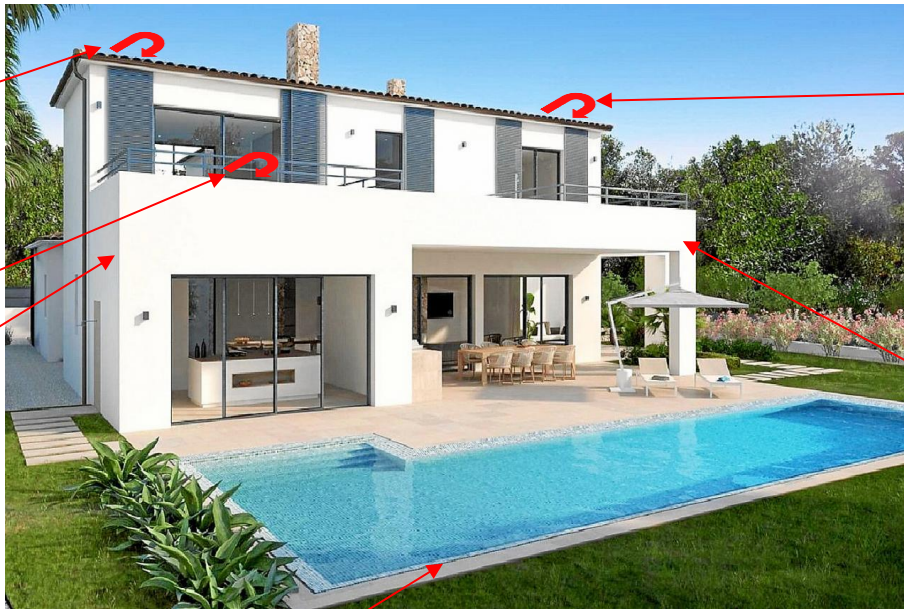

- Quick and easy adhesion.
- Waterproof and water resistant.
- Good resistance to solar rays.
- Flexible.
- Good adhesion to most typical building substrates.
- Easy application, no special tools required.

IMPERDECO
